DETAILED ACTION

Specification

Claims 4, 5 and 8 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim can not serve as a basis, parent claim for another multiply dependent claim. Examiner notes claim 3 is a multiple dependent claim and that claim 4 is a multiple dependent claim that depends from claim 3. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim 8 improperly depends from claims 6, 7 and 1-5.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With regard to claim 3 and 6, the recitation, "it" is not understood. Examiner suggests Applicant positively recite the structure to what "it" refers. Clarification is required.

Further regarding claim 6, the recitation, "associated with" renders the claim indefinite and vague. Is the load handling device operatively coupled/connected to the load carrier vehicle or not? Clarification is required.

With regard to claim 8 it is not clear from which claim, claim 8 depends, i.e. from claims 6, 7 or 1 to 5? Is the claim dependent upon claim 6 or 7? Is the claim dependent upon any one

Art Unit: 3725

of claims 1-5? Because the dependency of the claim can not be determined with clarity the claim is vague and indefinite; rendering a clear understanding of the claimed invention highly difficult. Clarification is required to facilitate an understanding of the claimed invention and proper application of the prior art.

Allowable Subject Matter

Claims 1 and 2 are allowed.
